

SHOPPING DATASET REPORT

Summary

This project analyzes **3,900 customer transactions** across **21 attributes**, including demographics, product details, payment methods, shipping preferences, and purchase frequency, to answer key business questions about what drives customer spending and loyalty.

- Dataset

The dataset includes Customer ID, Location, Shipping methods, Payment method, Items purchased, Category, Color, Discount, Purchase Amount, Gender, Size, Review rating, Subscription Status, Promo Code, Previous Purchases, Preferred Payment Method, Frequency of Purchases, Purchase Frequency Score, and Customer Type. This project analyzes **3900** Total Customer Id, **\$233,081.00** Total Sales Amount, **OLIVE** most Purchased Color (**Sunglass, 177**), **104,264** Clothing's Most Purchased Category, **68% Male** Loyal customers.

- **Format – Excel Workbook (raw data, cleaned data, pivot analysis, and visualization sheets)**

Key Findings

- **Shipping Type Revenue;**

Some shipping methods such as (Standard, express and 3-day shipping) have the most review rating. Whereas the **Free shipping** is the choicest cause of the Purchase amount.

- **Payment Method:**

Customers prefer to pay with **PayPal** method

- **Gender:**

Who shops more between both gender? The **male** gender shops **68%(2679)** , while the female shops **32% (1121) of** total customer id.

- **Customer Type**

How many of returning customers do we have? We have 2272 returning customer with more purchases on the clothing's

- **Seasonality**

Which season have the highest sales (Fall) and product? The fall season with over \$60,000, with **Hat** and **Jacket** topping the purchase chart.

Business Recommendations

- Prioritize marketing and inventory investment in **Clothing and Accessories**, the top revenue-driving categories
- Investigate why **male customers drive over twice the purchase volume** of female customers — potential opportunity to grow female customer engagement
- Since payment methods are evenly distributed, ensure **all major payment options remain supported** rather than over-indexing on one
- With New customers outnumbering Returning customers, explore **loyalty programs or subscription incentives** to improve retention
